MOLINOL PERFORMANCE 2T

This is a full synthetic lubricant for 2-stroke motorcycle engines that are used in fast track racing and competition racing. This product has a very high lubricating capacity compared to other 2-stroke motorcycle engine oils. Due to the very high detergent power ring sticking and deposits

are avoided. This product can be used for competition purposes, where mixed lubrication is necessary. This product can be used in circuit racing, road racing and motorcross. The advised dosage is 3 a 4% and for motorcross 2%.

GRADE	METHOD	UNIT	VALUE
Density @ 15 °C	ASTM D4052	kg/l	0,918
Kinematic viscosity @ 40 °C	ASTM D445	mm ² /s	120
Kinematic viscosity @ 100 °C	ASTM D445	mm ² /s	15,8
Viscosity Index	ASTM D2270		139
B.N. (HCL04 method)	ASTM D2896	mg KOH/g	2,9
Pour point	ASTM D6892	°C	-30
Flash point COC	ASTM D92	°C	240
Flash Point PM		°C	
Sulphated ash content	ASTM D874	%	0,12
